

Joint Conference The Future is distributed: a DSO Perspective

19 February 2015, 9.30-14.30
Renaissance Hotel Brussels, Rue du Parnasse 19

PROGRAMME

The four Brussels based associations representing DSOs are setting up a common event

08.30 Registration

Session I: Energy Transition 2030: What does the 40/27/27 mean for Distribution?

The purpose of this session is to present a compelling 2030 perspective by the DSOs- a vision and the necessary steps to get there: smart grids, innovation, data management, and market facilitation. The role of DSOs in the stakeholder landscape will be addressed at once. Smarter regulation will be needed for smarter distribution, underpinning the common objective of a cost efficient and successful energy transition.

9.15-9.30 Keynote: A Look back from 2030

A look back from the future: what does 27% RES electricity, 27% energy efficiency, 40% CO2 emissions reductions mean for distribution? Which vision do we have? What are the steps to be taken? The regulation needed? The relations with other stakeholders?

Christian BUCHEL

CEO-Deputy and Chief Digital & International Officer, ERDF

9.30- 9.45 Keynote Speech by:

Christopher JONES

Deputy Director General DG Energy
European Commission

9.45- 10.00 Keynote Speech by:

Valeria TERMINI

CEER Vice President and co-chair of
CEER's DSO Working Group

10.10-11.30 Panel Debate: starting with a 10 minute statement *Keynote Speakers above + Additional Panellists*

Discussion about:

1. the vision
2. the interface with other stakeholders (TSOs) and potential common interests
3. Investments
4. Innovation

Ari KOPONEN

CEO of Caruna

Asoos RASOOL

CEO of Mälarenergi Elnät AB

Richard VIDLICKA

ČEZ Distribuce

N.N.

CEDEC

Konstantin STASCHUS

Secretary General of ENTSO-E

Moderator: Peter BIRKNER, Executive Member of the Board, Mainova

11.30 Refreshments
